

HOUSE & GARDEN

PREMIUM NUTRIENTS & ADDITIVES

Roots Excelurator Gold VS Silver

Roots Excelurator creates a healthy environment where the root zone can thrive. This powerful root stimulator is the flagship product of the House and Garden Nutrient Line.

Roots Excelurator Gold

- *CDFA certified organic ingredients
- *6X more beneficial bacteria than Roots Silver
- *Best suited for Coco Coir and soils including those comprised of peat moss, and forest humus
- *Contains a proprietary seed extract - packed with amino acids and other organic biomolecules

Roots Excelurator Silver

- *Balanced ingredient composition to run clean in hydro
- *Does not contain the seed extract, which is strictly a soil inoculant
- *Consists of minerals, natural acids, and vitamins
- *Provides a powerful, microbe - rich formula without the addition of thick natural compounds
- *Contains natural stabilizers to enable it to perform well in recirculating systems / High O2 environments

Roots Excelurator Silver & Gold

- *Cold-pressed kelp base
- *Vitamin B complex
- *Beneficial proprietary species of bacteria
- *Should be stored between 45 - 85 degrees Fahrenheit to ensure maximum activity of the microorganisms

While we know the benefits and roles of both types, some customers cannot be switched in their preference.

This customer preference is why it is a good idea to stock both Gold and Silver in all sizes. Both items are now available in commercial sizes as well!
